Hi Aman! That's exactly what we do at GrowMinion. GBP optimization + LLM visibility is our core focus 🚀

Let's hop on a call this week? I'll show you exactly how we can fix this

2:28 PM ✓✓

Message

That message above? That's how it started.

Aman, the founder of Maana Law, reached out to our agency owner through a referral. His words were simple and honest: *"We barely get any leads from our GBP & website. Plus we don't show up on ChatGPT or any AI platforms at all. I really need help fixing this."*

Four months later, his phone won't stop ringing.

Here's exactly what happened.

The Backstory

Maana Law is a personal injury law firm on Matheson Blvd W in Mississauga. They handle car accidents, truck collisions, slip-and-falls, catastrophic injuries, dog bites, wrongful death, basically the cases where people's lives have been turned upside down and they need someone to fight for them.

Aman had built a solid reputation locally. 4.8 stars on Google, 24 reviews, real cases won for real people. But when it came to the internet, Maana Law was practically a ghost.

Their website had barely any traffic. Their Google Business Profile was collecting dust. And when someone in Mississauga typed "best car accident lawyer near me" into ChatGPT or Google, Maana Law was nowhere to be found.

Meanwhile, competitors like Neinstein, Diamond and Diamond, and other firms with 50+ years of history and hundreds of reviews were eating up every lead in the city.

Aman wasn't looking for miracles. He just wanted a fair shot. A system that would put Maana Law in front of the right people at the right time.

That's where we came in.

Personal injury attorney

Open · 90 Matheson Blvd W Suite 101

Specializes in commercial truck and motor vehicle accidents, with a focus on catastrophic injuries like spinal cord damage.

- Location: 90 Matheson Blvd W Suite 101, Mississauga.

Goals

- ✓ Generate immediate leads through Google Ads while SEO builds momentum
- ✓ Dominate Mississauga personal injury searches organically
- ✓ Get Maana Law recommended by AI platforms (ChatGPT, Gemini, Google AI Overview)
- ✓ Build a GBP that actively generates calls every week
- ✓ Create long-term authority that keeps growing after the campaign

The Challenges

This wasn't going to be easy. Here's what we were up against:

Brutal competition: Personal injury law in the GTA is one of the most competitive niches in all of Canadian digital marketing. We're talking about firms with \$100K+ monthly ad budgets and decades of SEO work.

Brand new SEO foundation: The website had very few ranking keywords and almost no organic traffic worth mentioning.

Limited content: No blog strategy, no location pages, no topical authority built whatsoever.

AI invisibility: Zero presence across ChatGPT, Gemini, Google AI Overview, or AI Mode. In 2026, that's like not having a phone number.

Budget-conscious: Unlike the big firms throwing \$50K/month at ads, we needed to be surgical with every dollar.

The Results

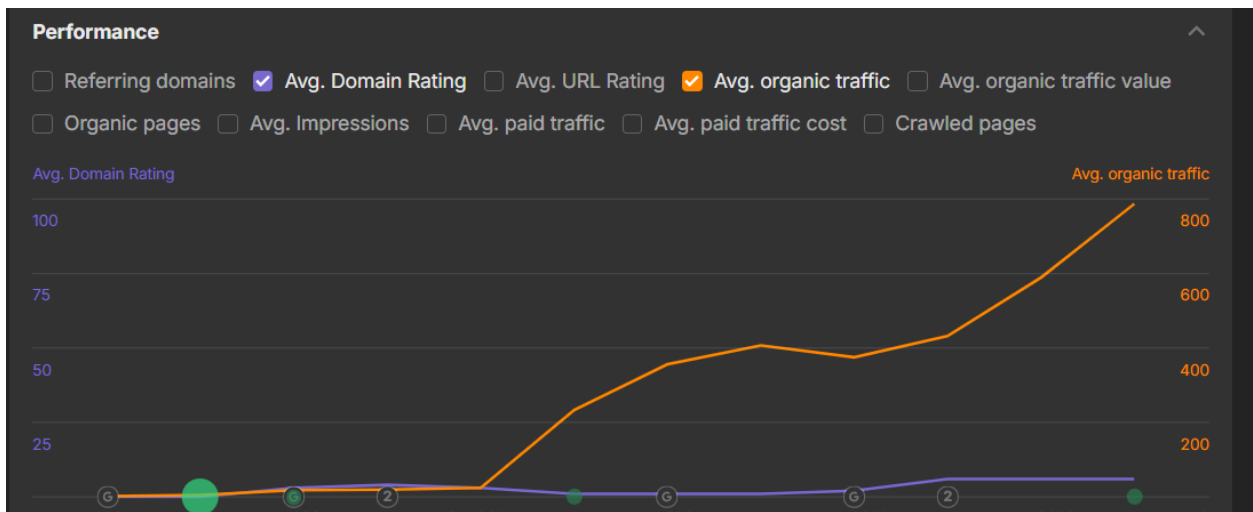

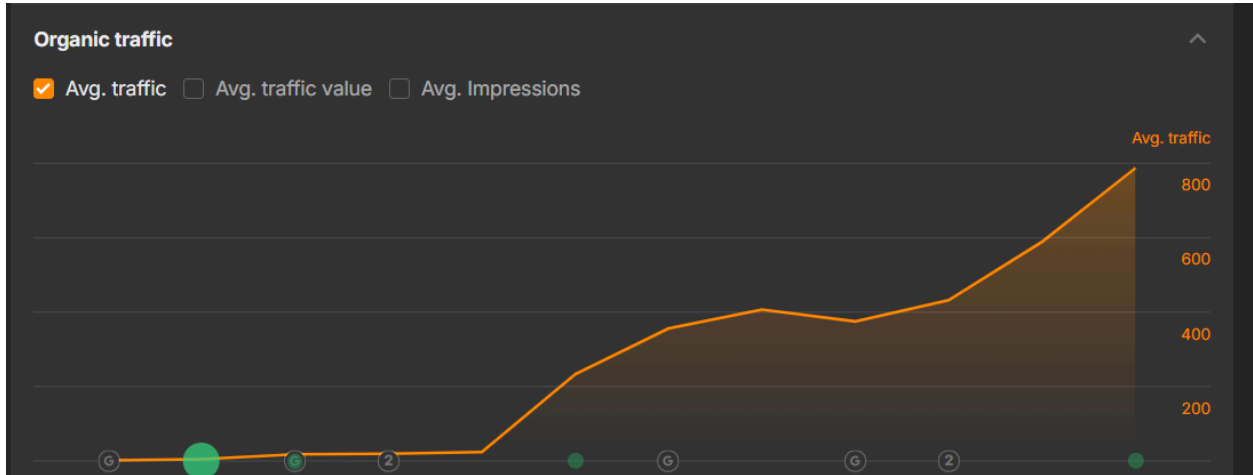

Organic SEO Performance (The Big Win)

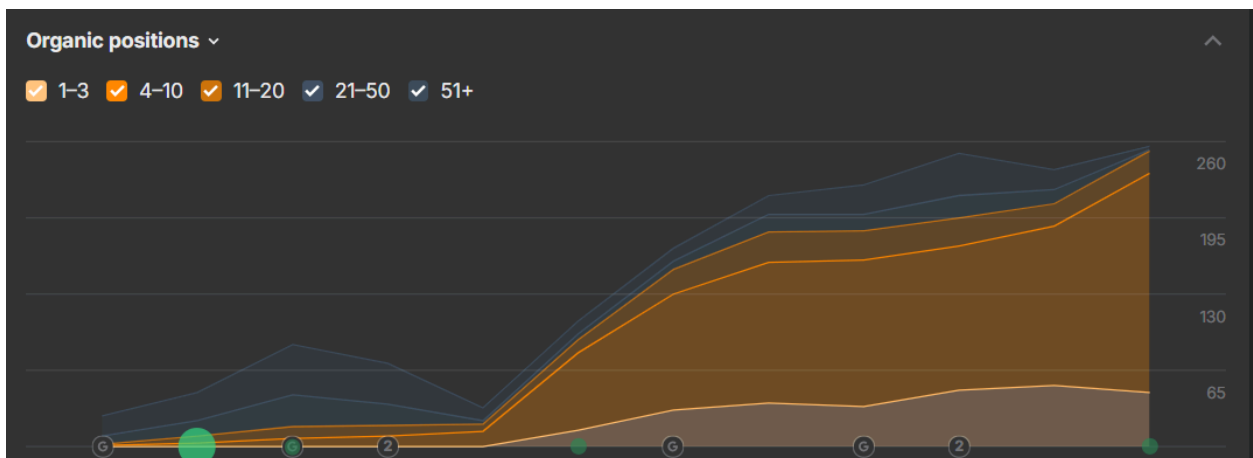

This is the chart that made Aman call us and say "what did you guys do?"

- ✓ **7,110 organic clicks** in 4 months
- ✓ **622,000 impressions** across Google
- ✓ **1.1% CTR** (strong for personal injury)
- ✓ **8.4 average position** (page 1)

For context, before we started, this website was barely getting 100 clicks a month. We took it to 7,110 in four months.

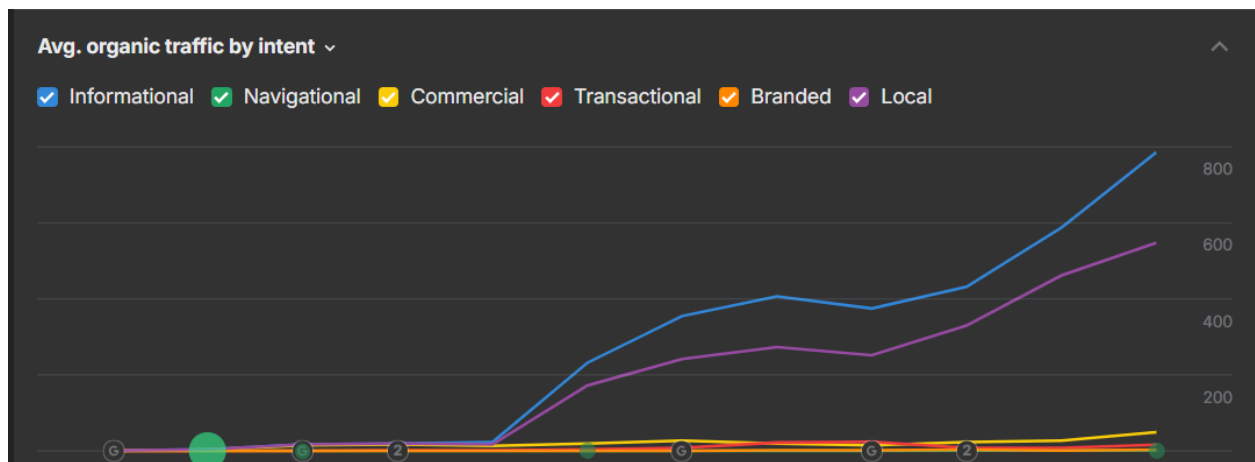

Keyword Rankings Explosion

The keyword growth tells the real story:

- ✓ **260+ total keywords ranking** (from barely any)
- ✓ **Positions 1-3:** Growing steadily (the money zone)
- ✓ **Positions 4-10:** Strong expansion across service terms
- ✓ **Positions 11-20:** Deep coverage building
- ✓ **Positions 21-50:** Foundation for future growth

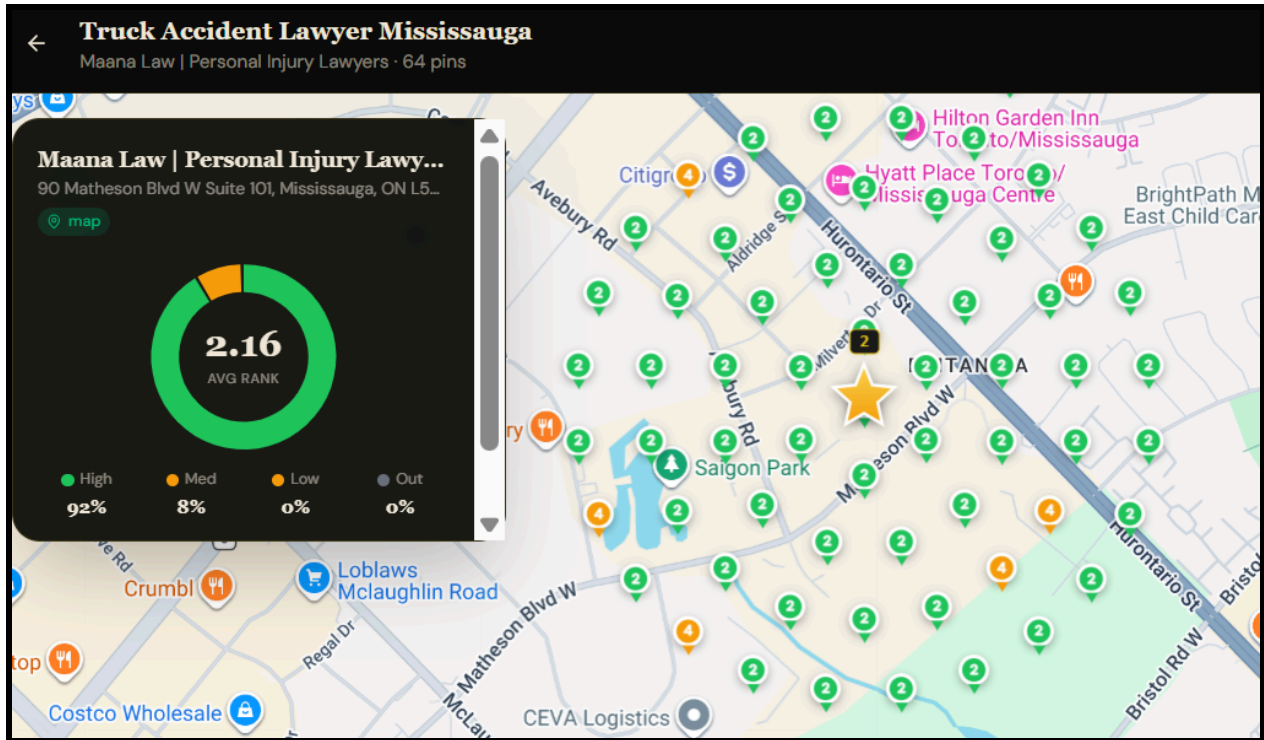

We're not talking about random keywords either. These are terms like "car accident lawyer mississauga," "truck accident lawyer mississauga," "personal injury lawyer near me," the keywords that turn into \$50K+ cases.

What I love about this chart is the purple line, that's **transactional traffic**. The people are ready to hire a lawyer right now. That line went from flat to 600+ in four months.

Local Map Pack Domination

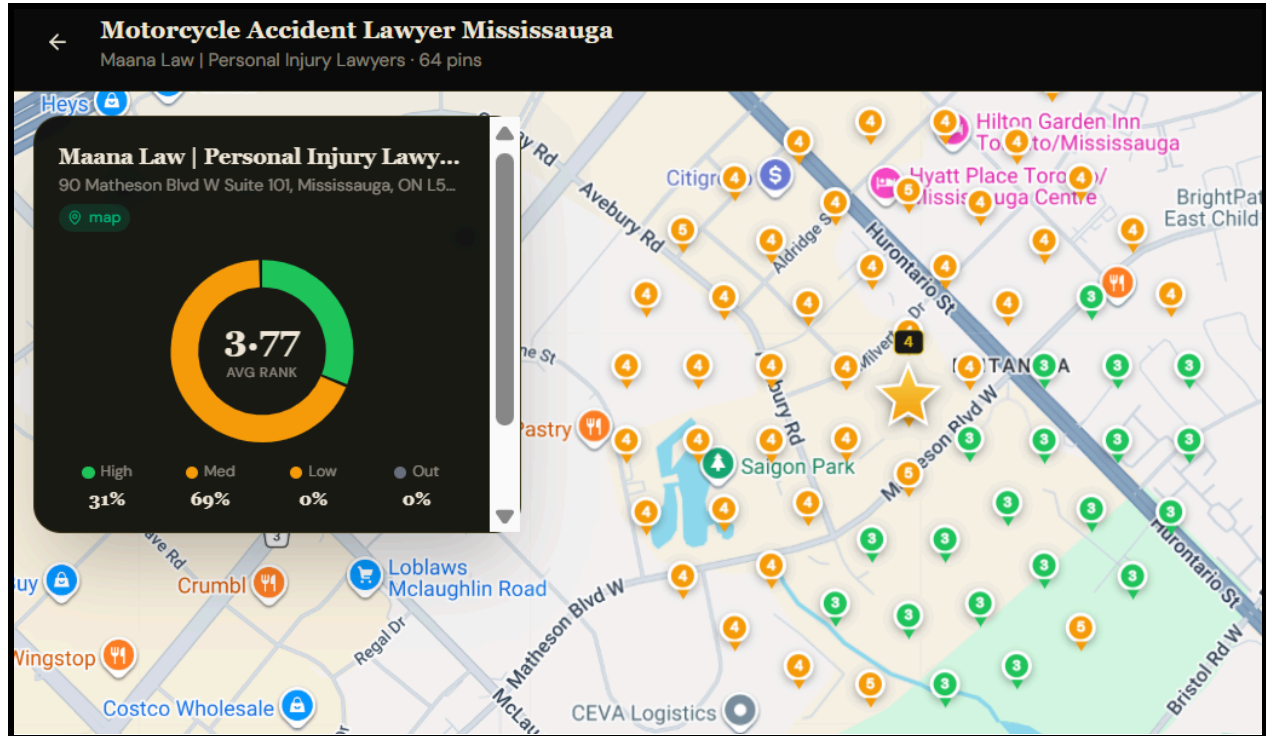

Here's something most agencies won't show you, **actual map pack rankings** tracked across multiple practice areas.

For "Truck Accident Lawyer Mississauga":

- **Average Rank: 2.16**
- **92% High visibility** (green pins dominating the map)
- **8% Medium visibility**
- **0% Low or Out of pack**

This means when someone searches for truck accident lawyers in Mississauga, Maana Law appears in position 2-3 of the local 3-pack almost every single time.

For "Motorcycle Accident Lawyer Mississauga":

- **Average Rank: 3.77**
- **31% High visibility**
- **69% Medium visibility**
- **0% Low or Out of pack**

Even for competitive motorcycle accident searches, Maana Law maintains a solid map pack presence across Mississauga.

Why This Matters:

The Google Maps 3-pack appears ABOVE organic results for local searches. Being in positions 1-4 means:

- Higher visibility than even #1 organic ranking
- Direct "Call" and "Directions" buttons
- Reviews and ratings displayed prominently
- Mobile users see you first

We didn't just optimize the GBP, we **dominated the local map pack** across multiple practice areas.

Google Business Profile Growth

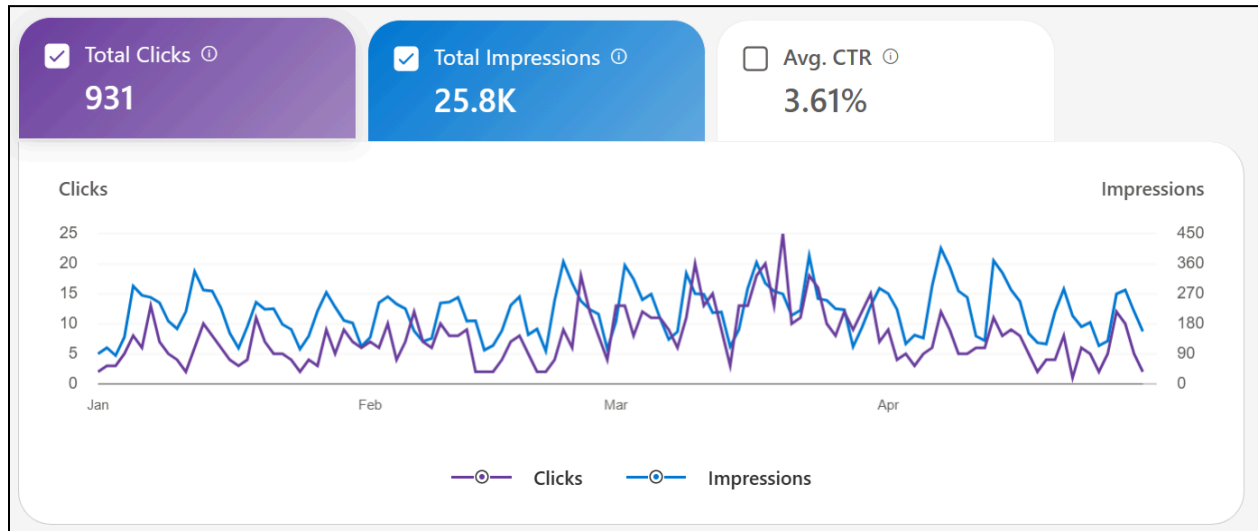

This graph says everything. Look at that upward curve:

- ✓ **39 total calls** from GBP (Jan-Apr 2026)
- ✓ **+77.3% increase** vs previous period (Jan-Apr 2025)
- ✓ **January: 4 calls** → **April: 15 calls**
- ✓ Consistent weekly engagement growth

We turned a dead GBP into a lead generation machine. Every week new posts, new photos, new videos, new FAQs. Relentless consistency.

Bing Local Rankings Performance

Our Bing local business optimization strategy delivered:

- ✓ **931 clicks** from Bing local search
- ✓ **25,800 impressions** across Mississauga area
- ✓ **3.61% CTR** (exceptional for local business discovery)

Why Bing Matters for Local Businesses:

While most law firms ignore Bing, we leveraged it as an additional local discovery channel. When people in Mississauga search for "personal injury lawyer near me" or "car accident lawyer mississauga" on Bing, Maana Law appears with:

- Consistent click volume throughout the campaign
- Steady impression growth month-over-month
- High engagement rates showing quality traffic

This created another touchpoint where potential clients could discover Maana Law, a channel competitors weren't even thinking about.

Citation Building & Authority Signals

Our aggressive citation and authority building campaign resulted in:

- ✓ **14,600 total citations** across the web
- ✓ **6 average cited pages** per listing
- ✓ Consistent growth from January through April
- ✓ Citations peaked at 300+ in March (major authority signal)

What This Means:

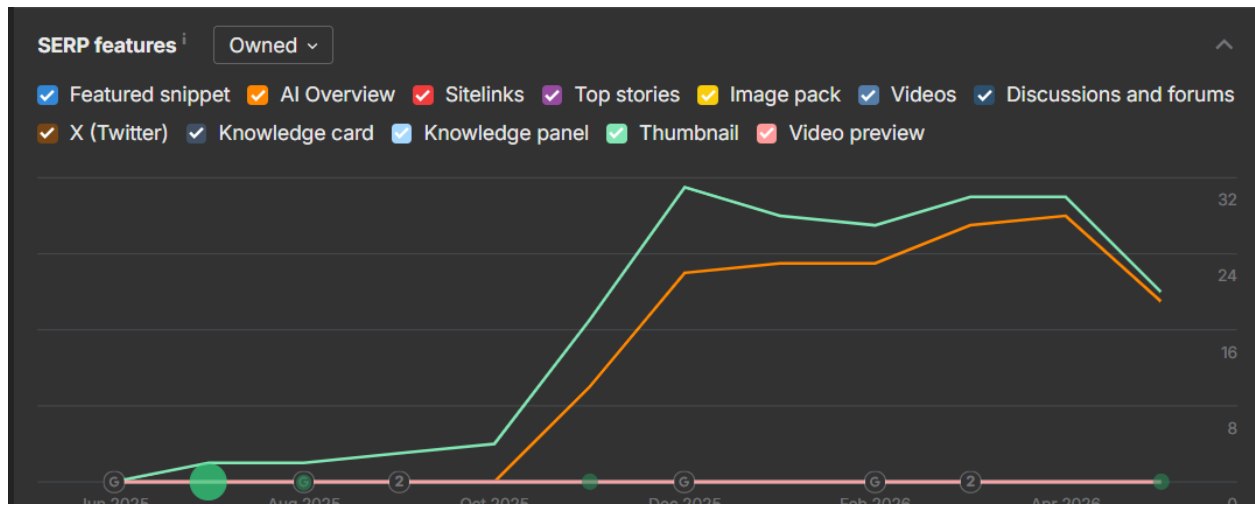

Citations are like digital votes of confidence. Every directory listing, every mention, every structured data point tells Google: "This business is legitimate and established."

We built citations across:

- Legal directories (Lawyer.com, FindLaw, Avvo)
- Local business directories (Yelp, YellowPages, 411.ca)
- General directories (Google, Bing, Apple Maps)
- Industry-specific platforms
- Social profiles
- Review sites

The spike in March (300+ citations) coincided with our major rankings jump; this wasn't a coincidence. Google saw Maana Law mentioned everywhere and rewarded them with higher visibility.

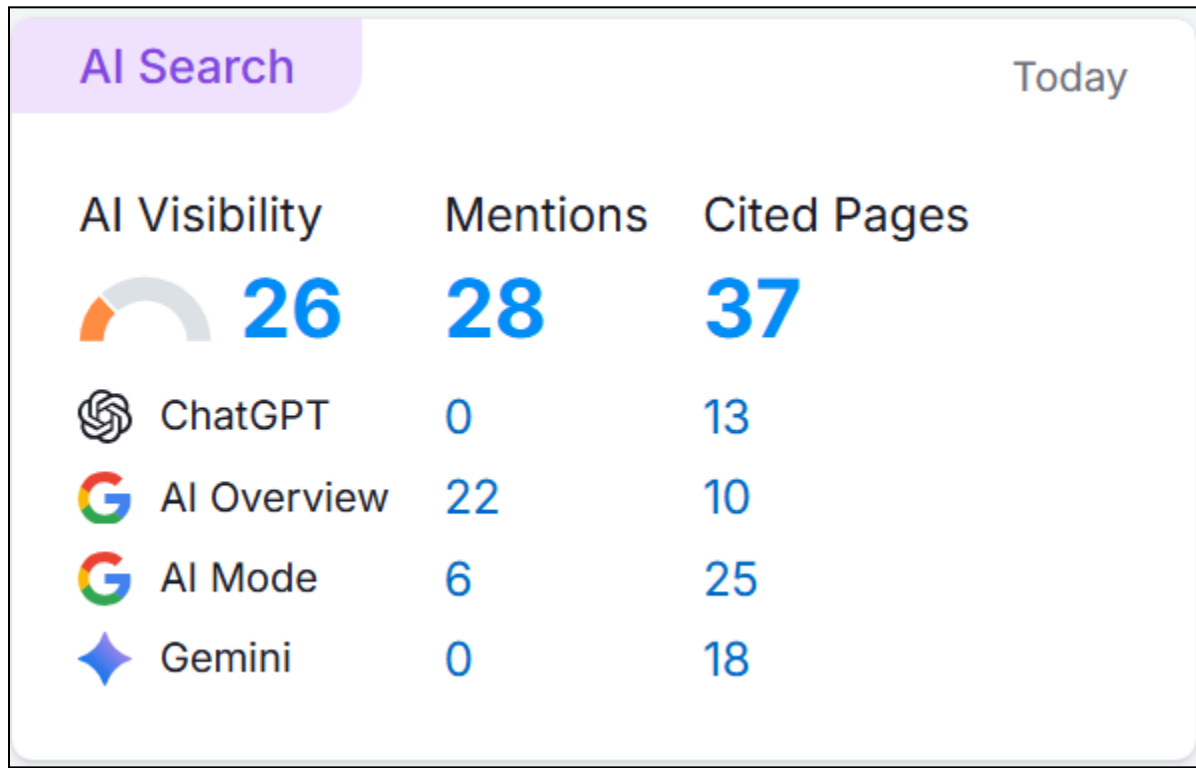

SERP Features Domination

We didn't just rank, we captured rich search features:

- ✓ **Featured Snippets** owned for multiple terms
- ✓ **AI Overview** mentions growing
- ✓ **Sitelinks** appearing for brand searches
- ✓ **Thumbnails** showing in results
- ✓ **Knowledge Card** signals building

AI Visibility (The Future-Proof Advantage)

Remember Aman's original message? *"We don't show up on ChatGPT or any AI platforms at all."*

Look at where Maana Law stands now:

- ✓ **AI Visibility Score: 26**
- ✓ **28 total AI mentions** across platforms
- ✓ **37 cited pages** being referenced by AI
- ✓ **Google AI Overview:** 22 mentions, 10 cited pages
- ✓ **Google AI Mode:** 6 mentions, 25 cited pages
- ✓ **ChatGPT:** 13 cited pages
